Ballet needles

The Ballet needle is manufactured with both a precise point and a mirror-like surface polish. The rounded tapered point of the needle will assist the electrologist in locating the follicle opening and upon insertion the needle will slide smoothly and accurately to the base of the follicle.

Stainless steel needles

Ideal for patients with strong healthy skin who respond well to electrolysis treatment.

Insulated needles

Suggested for patients with high sensitivity to discomforts of electrolysis.

24 carat gold plated needles

For clients who suffer from allergies and sensitive skin.
