AMBU[®] KING VISION[®] video laryngoscope

• 58101 KING VISION® VIDEO LARYNGOSCOPE SET

The King Vision[®] video laryngoscope is especially designed to visualize, in the most reliable way, the airways for routine and difficult intubations.

The reusable display is lightweight, water resistant, non-glare, smudge-proof, packaged in a protective foam case and is battery operated.

The blades are disposable and are individually packaged, eliminating cross contamination risks. It can be used continuously about 80 minutes, making it highly portable.

Video output compatible with external monitor and recording devices.

Two blade types: a standard blade that requires the use of a stylet to direct the ET tube and a channeled blade where you can guide the ET tube with the blade.

Made in the U.S.A.
